

# Animal Walks

This is a large motor activity from the Eating the Alphabet Theme Unit in the LANA Preschool Program.

## Possible Animals:

- Iguana
- Rabbit
- Frog
- Snake
- Elephant
- Kangaroo

## Directions:

1. Ask the children to spread out around the room.
2. Call out the names of animals and encourage them to walk the way that each animal walks. Include an iguana, since for most of them this is a new animal that has just been introduced.
